1. Introduction

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

Google Translate Power Toy for Magento 2 is a Quick Action toy allowing to use Google Translate from your Magento backend/frontend.

2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

We recommend installation via composer that will handle these dependencies automatically. In case of manual installation, please make sure to install these modules first.

2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See: <https://devdocs.magento.com/extensions/install/>

2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

Before Installing

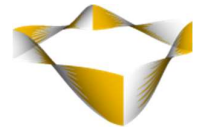

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server. We strongly recommend you to do not skip this step.

Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotGoogleTranslate
3. Unzip extension package and upload files into:
<magentoroot>/app/code/Jajuma/PotGoogleTranslate
4. Enter and run the following commands at the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

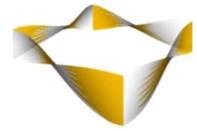

3. Extension Scope

This Quick Action Power Toy provides:

- Option to translate text from one language to another
- Option to set default "from" language, incl. auto language detection
- Option to set default "to" language
- Currently supported languages: en, de, fr, ja, zh-CN, es, vn, uk, ru

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

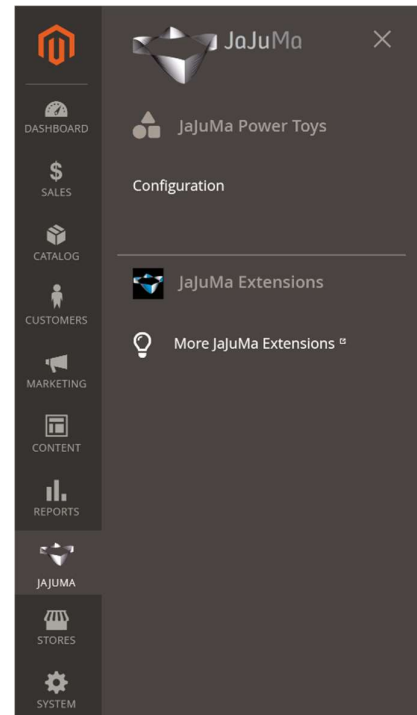

4. Configuration

In Magento Backend see

JaJuMa -> Power Toys -> Configuration

to enable or disable the extension and
configure the extension in tab

-> Google Translate

4.1. Google Translate Power Toy Settings

The configuration in

JaJuMa -> Power Toys -> Configuration -> Google Translate

provides the option to Enable/Disable the toy/extension.

With **Enabled** =

- Yes → Toy is enabled
- No → Toy is disabled

As well as following options:

- **Base Url:** API endpoint for Google Translate
(default: https://translate.googleapis.com/translate_a/single)
- **Languages:** Multi-select for languages to be used
- **From Language:** Default language for “From”-Drop-Down in translate popup
- **To Language:** Default language for “To”-Drop-Down in translate popup

Google Translate

Enable [store view] Yes

Base Url [store view] https://translate.googleapis.com/translate_a/single

Languages [store view]
Auto
English
VietNam
German
France
Japan
Chinese
Spanish
Ukraine
Russia

From Language [store view] Auto

To Language [store view] German

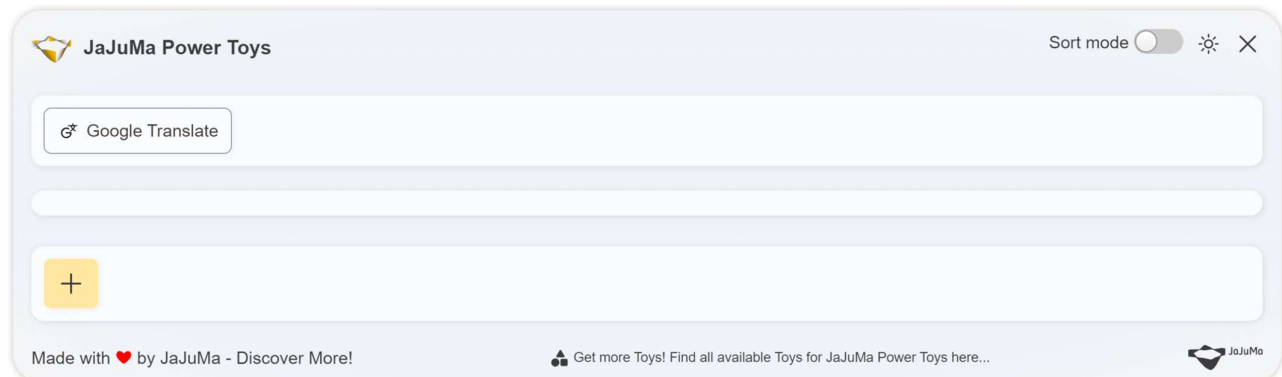

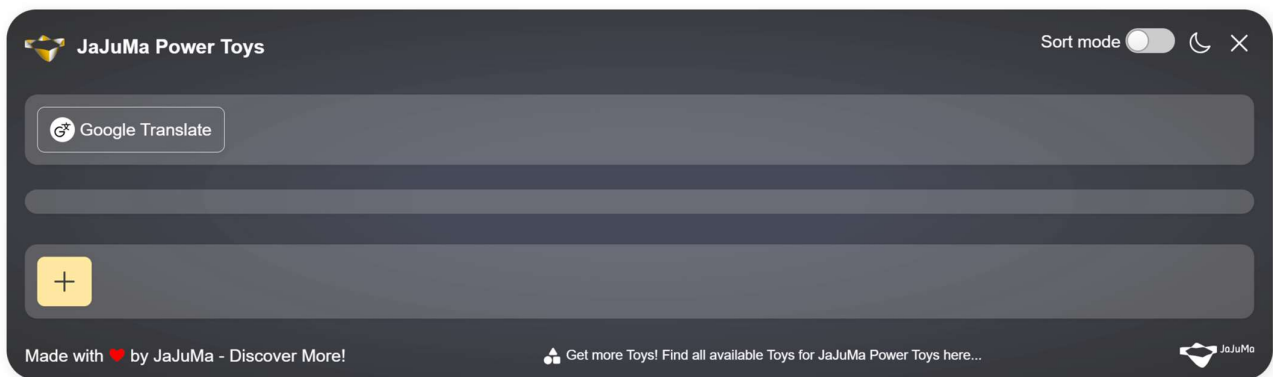

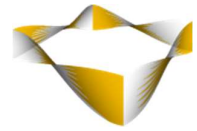

5. Using Google Translate Power Toy

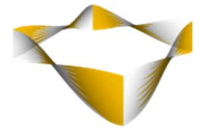

After enabling and configuring the toy, open the Power Toys panel and see button “Google Translate”.

When click this button, the Translate popup will open and display

- Left Drop-Down: Language from which text should be translated
- Left Text Input: Input for original text
- Right Drop-Down: Language to which the text should be translated
- Right Text Boy: Will display Translated text as returned by Google Translate

6. Support

Please feel free to contact JaJuMa support team via support@jajuma.de.

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
