# 1. Introduction

---

**NOTE:**

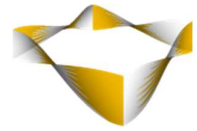

*This module requires Magento Power Toys main module as well as Honey Spam Anti-Spam extension by JaJuMa.*

*See section 2 for full installation requirements & guide.*

---

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

**Honey Spam Power Toy** for Magento 2 is a Dashboard toy displaying statistics about spam detection in your store with JaJuMa Honey Spam Anti-Spam.

## 2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Honey Spam Anti-Spam](#) for Magento by JaJuMa
- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

---

*We recommend installation via composer that will handle these dependencies automatically. In case of manual installation, please make sure to install these modules first.*

---

### 2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See: <https://devdocs.magento.com/extensions/install/>

### 2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

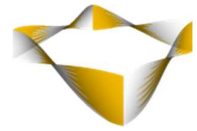

#### **Before Installing**

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server. We strongly recommend you to do not skip this step.

#### **Upload the Extension**

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotHoneySpam
3. Unzip extension package and upload files into:  
<magentoroot>/app/code/Jajuma/PotHoneySpam
4. Enter and run the following commands at the command line:

---

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

---

---

### 3. Extension Scope

This Dashboard Power Toy displays:

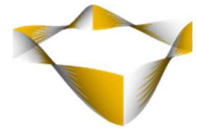

- Statistics about spam detection in your store:
  - Stats how much spam was detected and blocked in last X hours in your Magento store

---

**NOTE:**

*This module requires Magento Power Toys main module.  
See section 2 for full installation requirements & guide.*

---

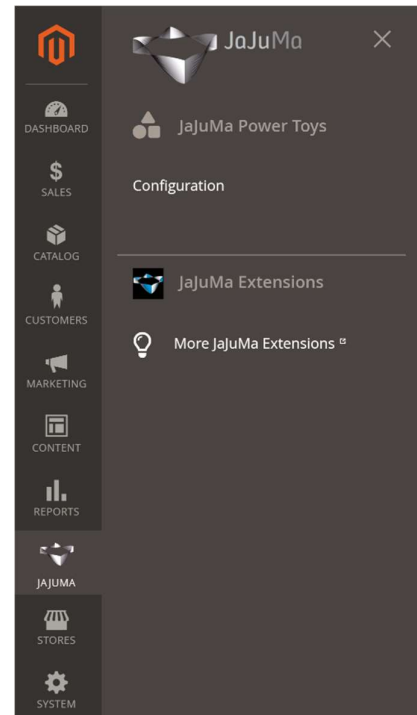

## 4. Configuration

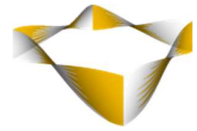

In Magento Backend see

***JaJuMa -> Power Toys -> Configuration***

to enable or disable the extension and  
configure the extension in tab

***-> Honey Spam***

## 4.1. Honey Spam Power Toy Settings

The configuration in

***JaJuMa -> Power Toys -> Configuration -> Honey Spam***

provides the option to Enable/Disable the toy/extension.

With Enabled =

- Yes → Toy is enabled
- No → Toy is disabled

Honey Spam ⌵

Enable [store view]

Spam in last XXX hours [store view]

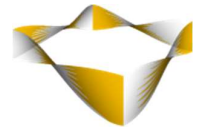

## 5. Using Honey Spam Power Toy

After enabling the toy, open the Power Toys panel and see Dashboard Toy “Honey Spam”

The Toy displays:

- Stats how much spam was detected and blocked in last X hours in your Magento store

---

## 6. Support

Please feel free to contact JajuMa support team via [support@jajuma.de](mailto:support@jajuma.de).

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
