## 1. Introduction

---

**NOTE:**

*This module requires Magento Power Toys main module.*

*See section 2 for full installation requirements & guide.*

---

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

**Note Power Toy** for Magento 2 is a Quick Action toy providing a note/memo function for admins in your Magento store.

## 2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

---

*We recommend installation via composer that will handle these dependencies automatically.  
In case of manual installation, please make sure to install these modules first.*

---

### 2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See:  
<https://devdocs.magento.com/extensions/install/>

### 2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

#### Before Installing

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server.  
We strongly recommend you to do not skip this step.

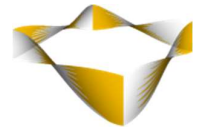

#### Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotNote
3. Unzip extension package and upload files into:  
<magentoroot>/app/code/Jajuma/PotNote
4. Enter and run the following commands at the command line:

---

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

---

---

### 3. Extension Scope

This Quick Action Toy provides:

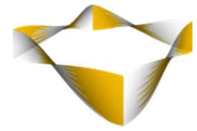

- Option to quickly save notes/memos in

---

**NOTE:**

*This module requires Magento Power Toys main module.  
See section 2 for full installation requirements & guide.*

---

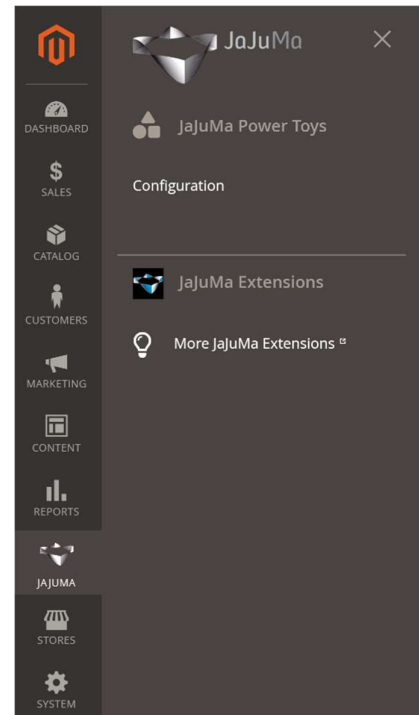

## 4. Configuration

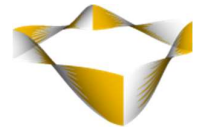

In Magento Backend see

***JaJuMa -> Power Toys -> Configuration***

to enable or disable the extension and  
configure the extension in tab

**-> Note**

## 4.1. Note Toy Settings

The configuration in

***JaJuMa -> Power Toys -> Configuration -> Note***

provides the option to Enable/Disable the toy/extension.

With **Enabled** =

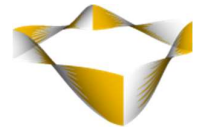

- Yes → Toy is enabled
- No → Toy is disabled

As well as option to

- see and edit current note/memo

The screenshot shows a configuration window titled "Note" with a close button in the top right corner. It contains two settings:

- Enable** [global]: A dropdown menu currently set to "Yes".
- Note** [global]: A text area containing a list of notes:
  - Notes:
  - Enable bfcache
  - Update new category callouts with content from .git
  - Enable Matomo Stealth Mode tracking
  - Setup Ultimate Image Optimizer for AVIF images
  - Get Hyvä Inline CSS to get rid of CSS files

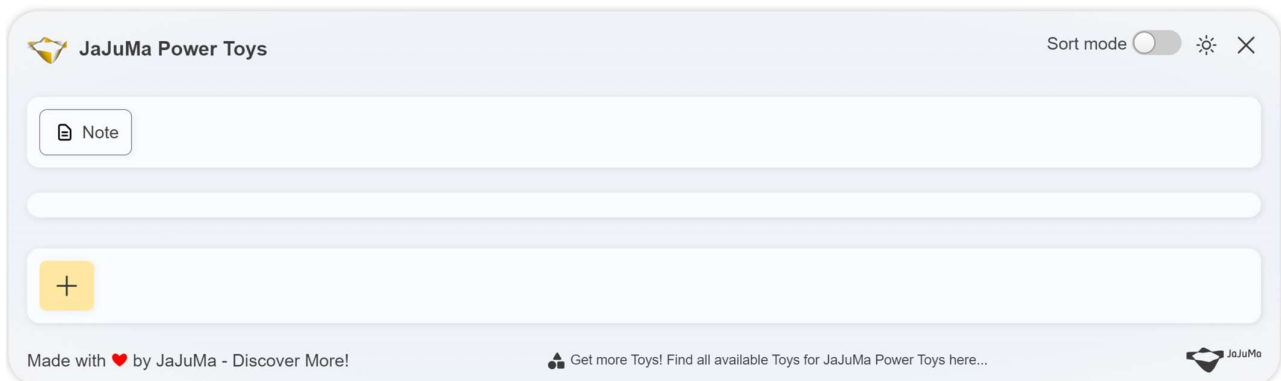

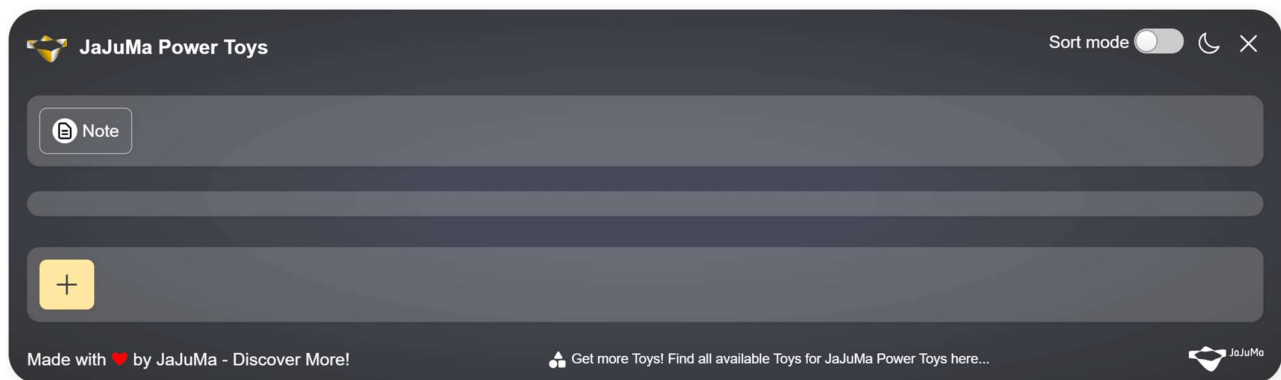

## 5. Using Note Power Toy

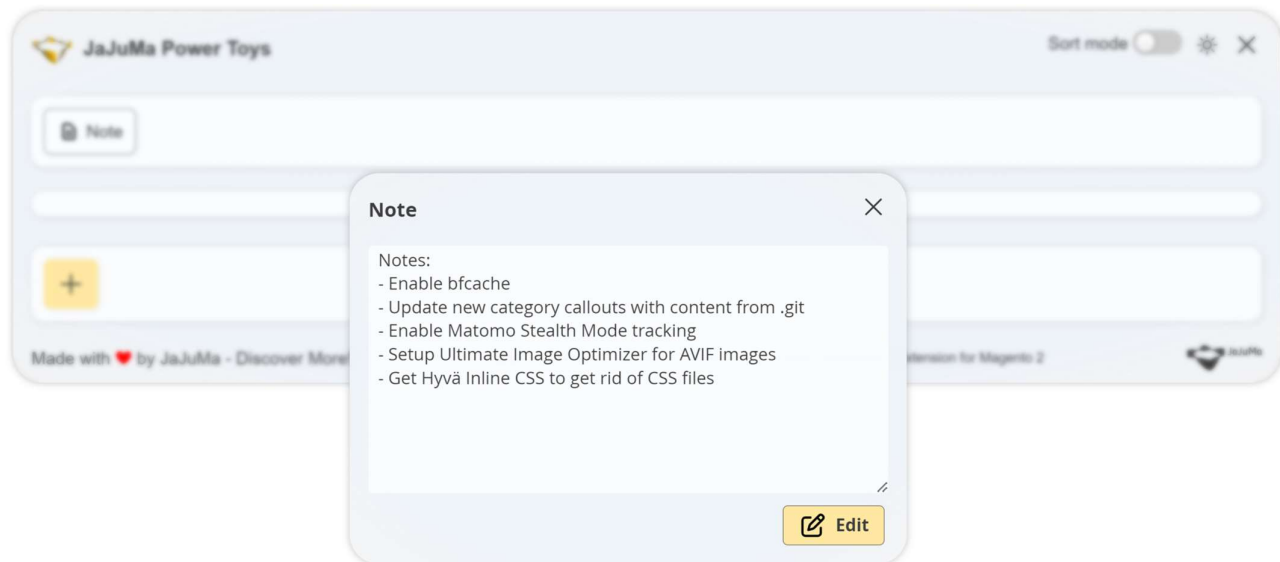

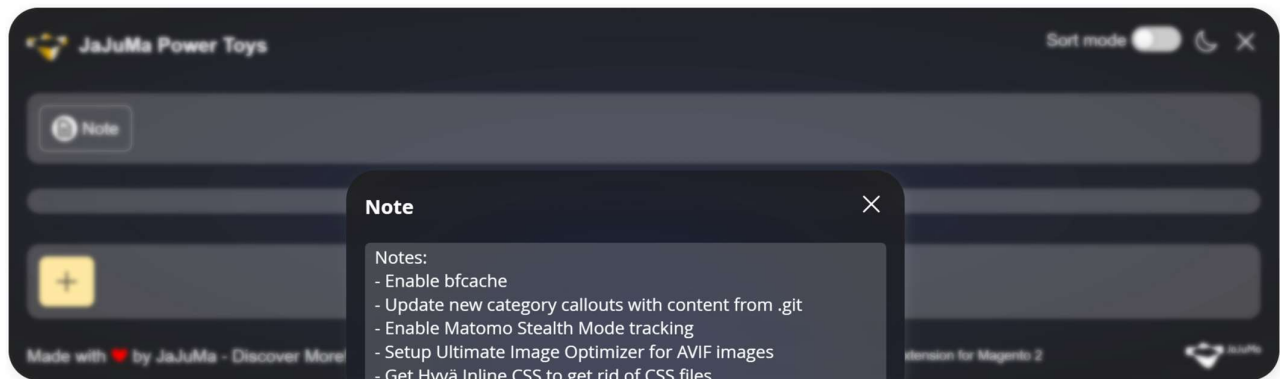

After enabling & configuring the toy, open the Power Toys panel and see Quick Action Toy “Note”

When click this button, the Note popup will show with:

- **Note/Memo Text and**
- **“Edit”-Button** for editing Note/Memo
- **“Close”-Button** for closing the popup

---

## 6. Support

Please feel free to contact JaJuMa support team via [support@jajuma.de](mailto:support@jajuma.de).

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
