1. Introduction

NOTE:

This module requires Magento Power Toys main module.

See section 2 for full installation requirements & guide.

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

Quick Reindex Power Toy for Magento 2 is a Quick Action toy to quickly reindex data in your Magento store.

2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

We recommend installation via composer that will handle these dependencies automatically. In case of manual installation, please make sure to install these modules first.

2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See: <https://devdocs.magento.com/extensions/install/>

2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

Before Installing

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server. We strongly recommend you to do not skip this step.

Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotQuickReindex
3. Unzip extension package and upload files into:
<magentoroot>/app/code/Jajuma/PotQuickReindex
4. Enter and run the following commands at the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

3. Extension Scope

This Quick Action Power Toy provides:

- Index Status indicator:
 - red circle: Index are invalidated
 - green circle: Index are up-to-date
- Index schedule status for each index
- Option to reset all index
- Option to reindex all index
- Options to reindex each index one-by-one

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

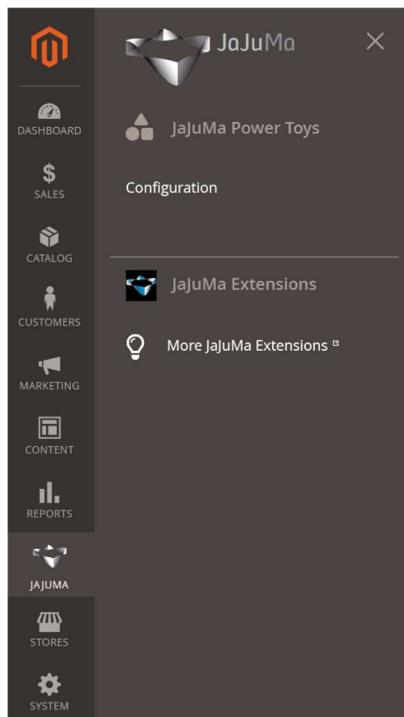

4. Configuration

In Magento Backend see

JaJuMa -> Power Toys -> Configuration

to enable or disable the extension and
configure the extension in tab

-> Quick Reindex

4.1. Quick Reindex Power Toy Settings

The configuration in

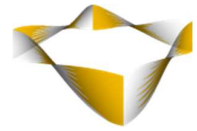

JaJuMa -> Power Toys -> Configuration -> Quick Reindex

provides the option to Enable/Disable the toy/extension.

With **Enabled** =

- Yes → Toy is enabled
- No → Toy is disabled

A screenshot of a configuration window titled "Quick Reindex". In the top right corner, there is a circular icon with a downward arrow. The main content area contains a label "Enable" with "[global]" in smaller text below it. To the right of this label is a dropdown menu with "Yes" selected and a downward arrow on the right side of the menu box.

5. Using Quick Reindex Power Toy

After enabling and configuring the toy, open the Power Toys panel and see button “Reindex”.

The button includes a

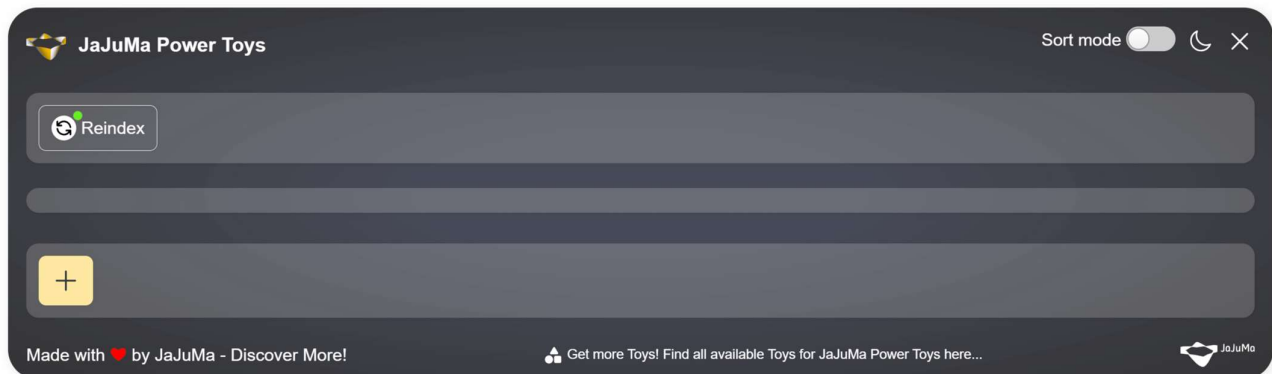

- red circle: Index are invalidated
- green circle: All index are up-to-date

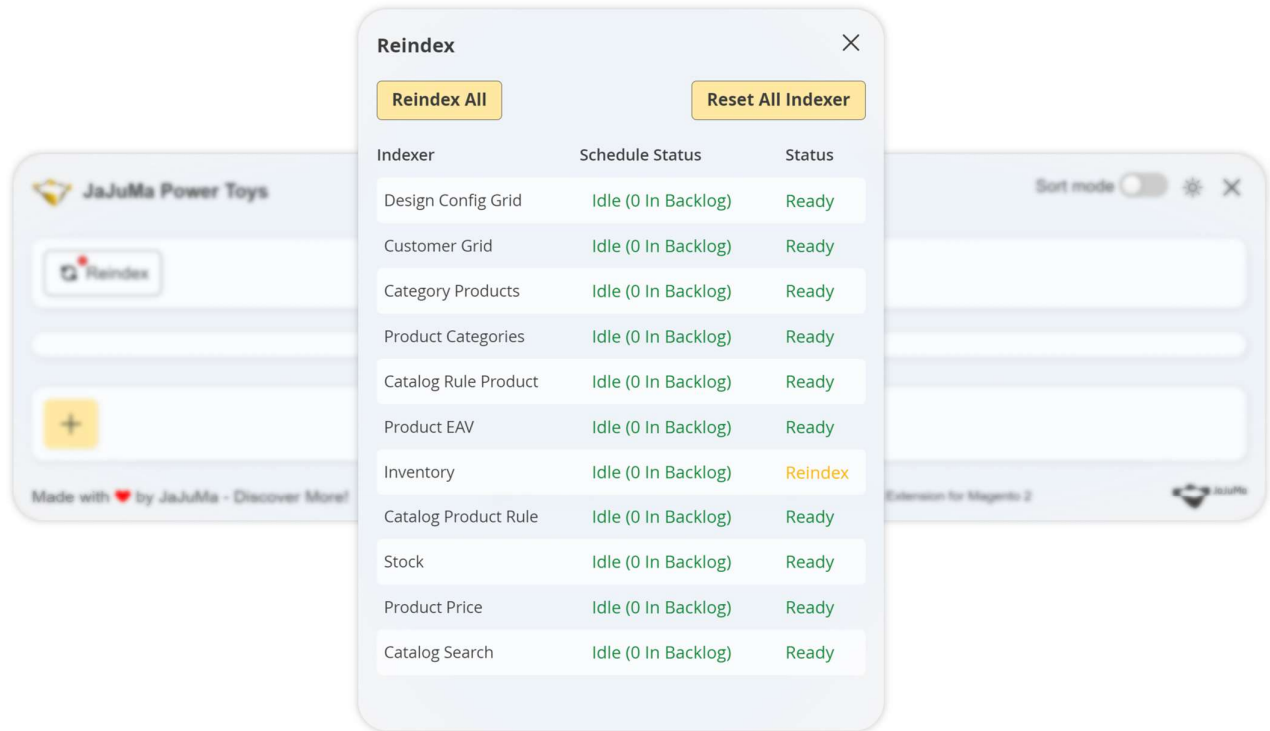

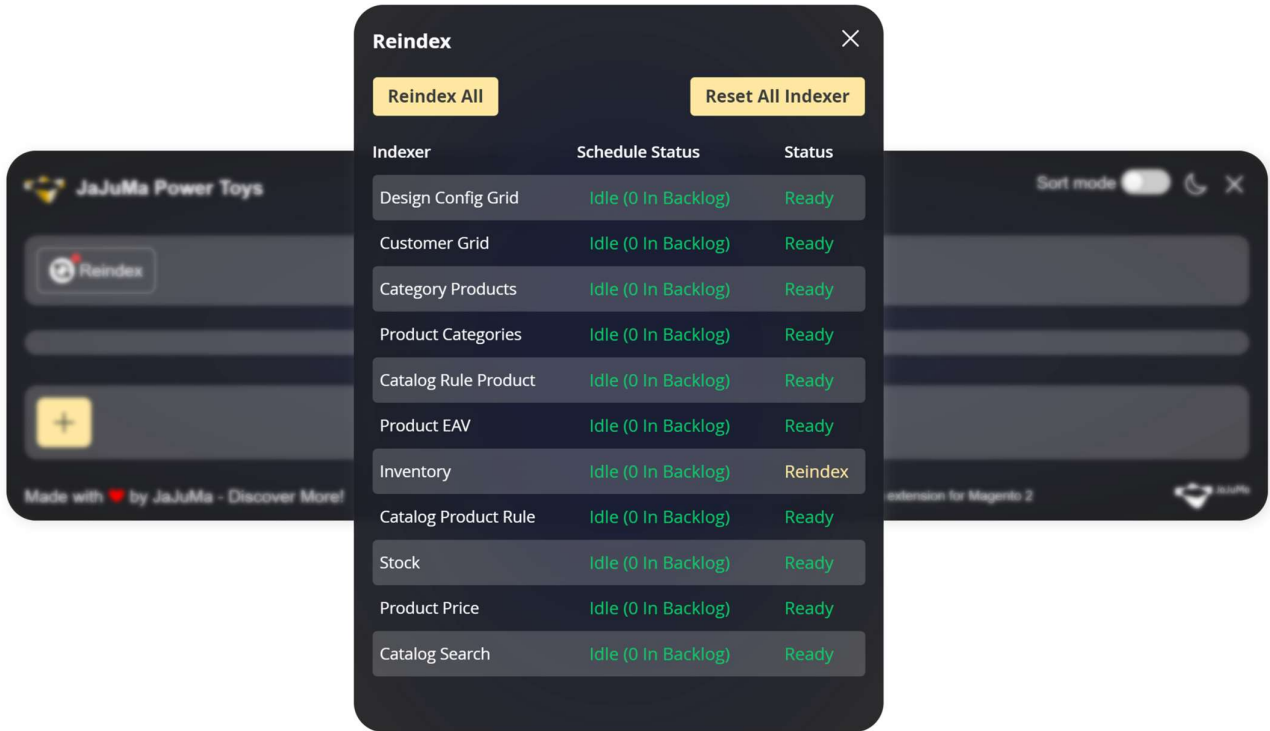

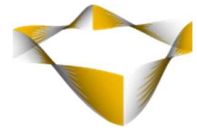

When click this button, the Reindex popup will open and display

- List of all indexers with
- Name, Index schedule status for each index & Status

And allows you to

- Reindex all index by click button **Reindex All**
- Reindex all index by click button **Reset All Index**
- Reindex each index one-by-one by click **“Reindex”** in column **“Status”** (only available for invalidated index)

6. Support

Please feel free to contact JaJuMa support team via support@jajuma.de.

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
