1. Introduction

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

[JaJuMa Power Toys](#) for Magento 2 by [JaJuMa](#) is a framework for tools and helpers , a.k.a "Toys", for Magento Admins to tune and streamline their Magento experience for greater productivity.

Todo Power Toy for Magento 2 is a Quick Action toy providing a todo list function for admins in your Magento store.

2. Installation

For installing the extension, follow installation process as with any Magento Extension. This module requires

- [Magento Power Toys](#) v1.0.0+
- [Magewire](#) v1.10+ & [Magewire-requirejs](#) v1.1+

We recommend installation via composer that will handle these dependencies automatically. In case of manual installation, please make sure to install these modules first.

2.1. Extension Installation via composer

For installing the extension via composer, follow installation process as with any Magento Extension from Magento Marketplace. See: <https://devdocs.magento.com/extensions/install/>

2.2. Manual Extension Installation via FTP

For manual installation by FTP, please follow these steps:

Before Installing

1. We recommend you to duplicate your live store on a staging/test site and try installation on your staging/test site before deploying to your live store
2. Backup Magento files and the store database

Please Note: It's very important to backup all themes and extensions in Magento before installation, especially when you are working on a live server. We strongly recommend you to do not skip this step.

Upload the Extension

1. Log into your hosting space via a FTP client (e. g. FileZilla, WinSCP, cuteFtp)
2. Create Folder: <magentoroot>/app/code/Jajuma/PotTodo
3. Unzip extension package and upload files into:
<magentoroot>/app/code/Jajuma/PotTodo
4. Enter and run the following commands at the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

3. Extension Scope

This Quick Action Toy provides:

- A todo list for admins in your Magento store with options to
 - Add new todo's
 - Remove todo's that have been done
 - Remove all pending todo's

NOTE:

*This module requires Magento Power Toys main module.
See section 2 for full installation requirements & guide.*

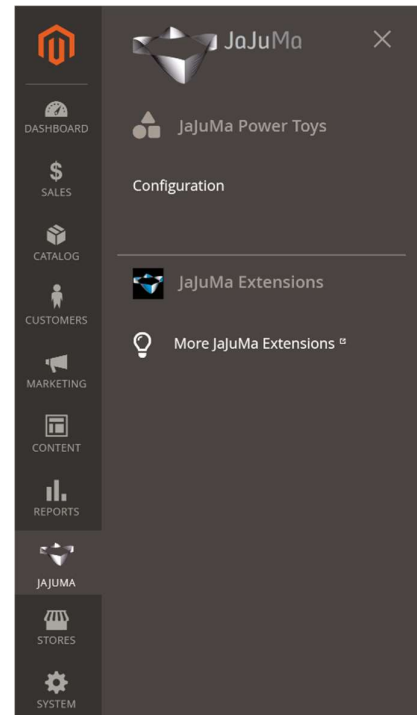

4. Configuration

In Magento Backend see

JaJuMa -> Power Toys -> Configuration

to enable or disable the extension and
configure the extension in tab

-> ***Todo***

4.1. Todo Toy Settings

The configuration in

JaJuMa -> Power Toys -> Configuration -> Todo

provides the option to Enable/Disable the toy/extension.

With **Enabled** =

- Yes → Toy is enabled
- No → Toy is disabled

A screenshot of a web interface for configuring the 'Todo' power toy. The interface is a white rectangular box with a light gray border. In the top left corner, the word 'Todo' is displayed. In the top right corner, there is a small circular icon with a downward arrow. The main content area contains a label 'Enable' with a smaller text '[store view]' underneath it. To the right of this label is a dropdown menu with a white background and a gray border, currently showing the value 'Yes'. A small gray square with a white downward arrow is positioned to the right of the dropdown menu.

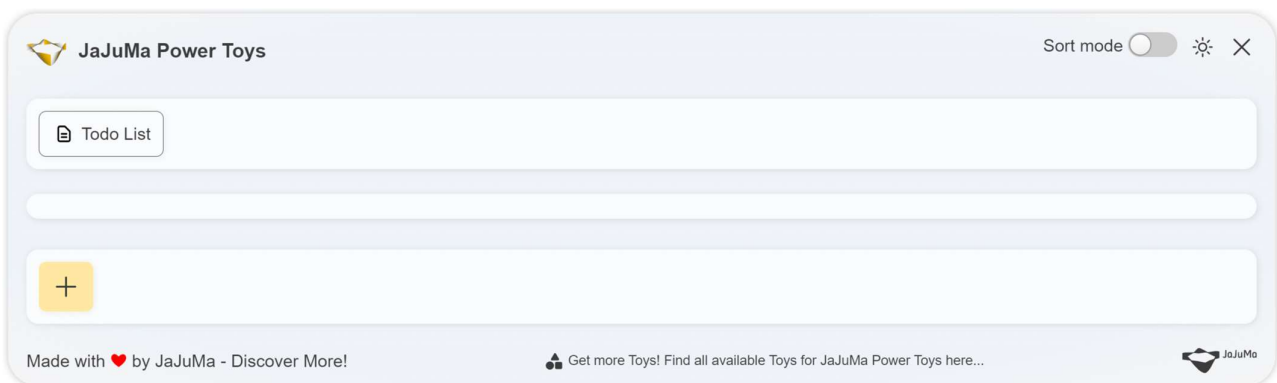

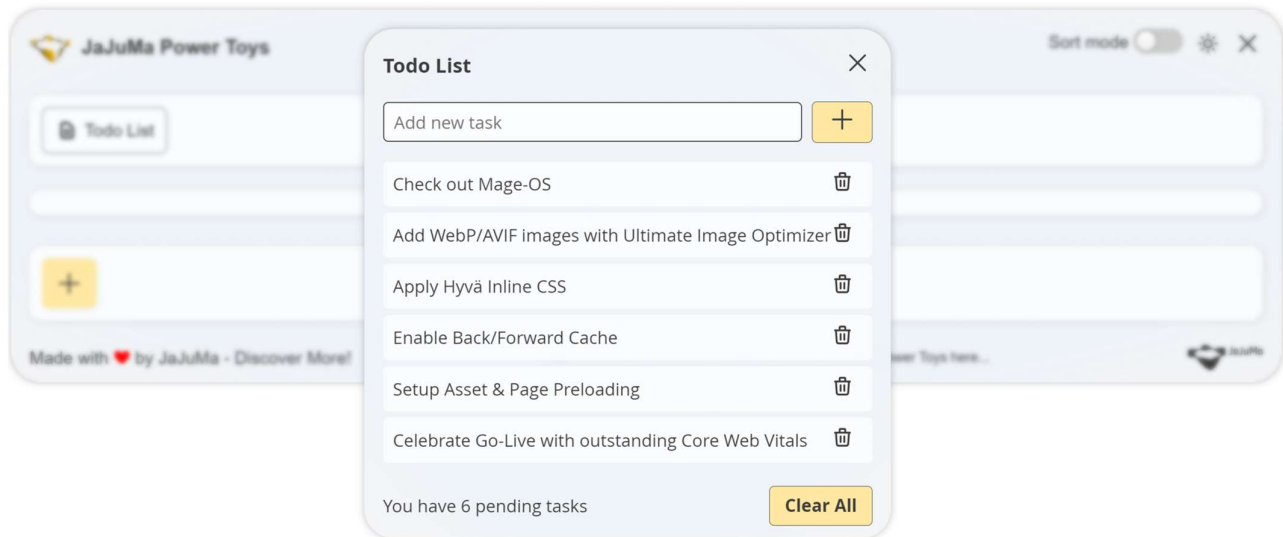

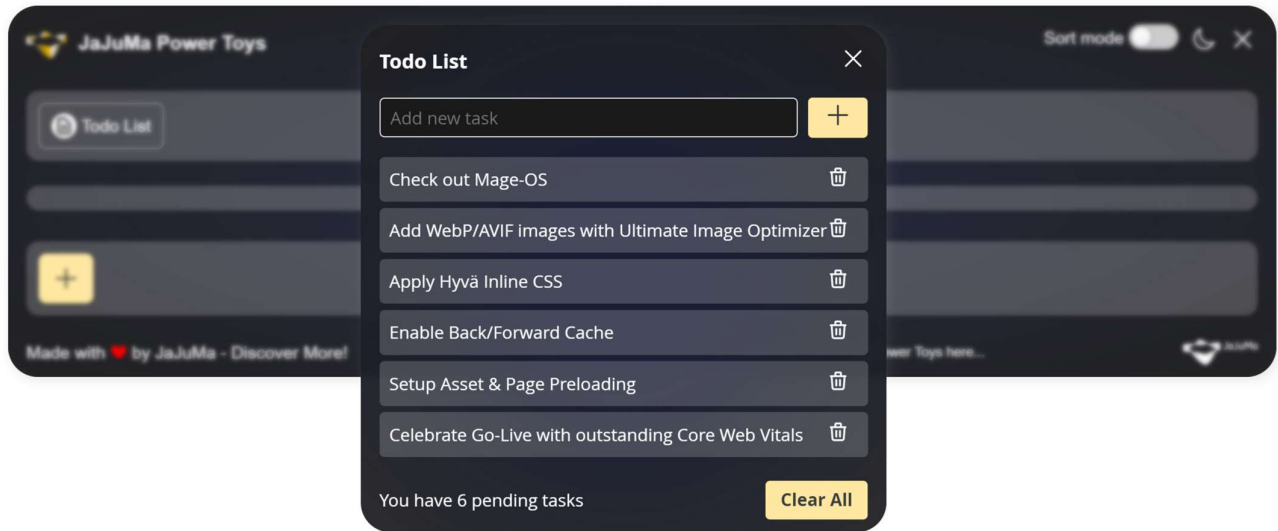

5. Using Todo Power Toy

After enabling & configuring the toy, open the Power Toys panel and see Quick Action Toy "Todo List"

When click this button, the Todo List popup will show with:

- **Text input and "+"-Button** for adding new todos
- List of all pending Todos
- **Trashcan icon** for deleting done todos
- **Clear All** button for deleting all pending todos

6. Support

Please feel free to contact JaJuMa support team via support@jajuma.de.

In case any additional information is required. We'd be more than happy to assist in setting up the extension.
